

# Innovative Remediation Solutions Workshop - British Columbia

October 28, 2009, Vancouver, BC

Westin Bayshore Hotel, 1601 Bayshore Street

Innovative Canadian Remediation Solutions | Technology Vendor Presentations | Federal Updates |  
Case Studies | Tradeshow | Breakout Session | Networking

OCETA, in collaboration with Public Works and Government Services Canada (PWGSC) in the Pacific and Yukon Region, is pleased to present this *Innovative Remediation Solutions Workshop – British Columbia*, a unique one day workshop designed for custodians of contaminated sites, innovative technology vendors and other stakeholders.

## PURPOSE:

Provide custodians, technology vendors and other stakeholders with the opportunity to discuss issues and collaborate to address barriers on contaminated sites in the Pacific and Yukon Region.

## HIGHLIGHTS:

- **Learn** about innovative Canadian remediation solutions (presentations by technology vendors and case studies on Federal contaminated sites);
- **Encourage** the adoption of innovative remediation solutions (breakout session);
- **Network** with technology vendors and service providers (Tradeshow as part of the *2009 Canadian Brownfields Conference*); and
- **Develop** synergies with potential solution providers, clients, and government representatives through networking breaks and sponsored reception (TBC).
