

**Do You Need an Environmental Technology Student for the Summer? Subsidies Available!**

College of the North Atlantic Corner Brook campus has a three year Environmental Technology program which has a cooperative component. This year, the College is having difficulty finding summer work term (May 5 to August 29) placement positions for some of its Environmental Technology students and has approached NEIA for assistance.

Can you accommodate a summer student who is willing to pay his or her own travel costs and make arrangements for living accommodations? A young person who can draw upon his or her current and growing technical knowledge? Who has a determined work ethic and can contribute to many aspects of environmental projects and related work?

Our young people are our future. Our labour force is shrinking and we don't need to lose any more of our best and brightest to Alberta!

Hire a student for the summer! For impressive information on CNA's Environmental Technology program, and for information on subsidy programs, call Bonnie Andrews at 772-3336, or email at [bonnie@neia.org](mailto:bonnie@neia.org).

**Could You Use an Environmental Policy Student for the Summer?**

NEIA has been approached by a student who wants to pursue a career in environmental policy. If you are interested in meeting with this student regarding a summer placement, call Bonnie Andrews at 772- 3336, email [bonnie@neia.org](mailto:bonnie@neia.org).
